	\$4,020				

The above income levels refer to family income. Family income includes earnings, unemployment compensation, workers' compensation, Social Security, supplemental security income, public assistance, veterans' payments, survivor benefits, pension or retirement income, interest, dividends, rents, royalties, income from estates, trusts, educational assistance, alimony, child support, assistance from outside the household, and other miscellaneous sources. Non-cash benefits (such as food stamps and housing subsidies) do not count. Family income is calculated before taxes and excludes capital gains or losses.

Other Asset Exemptions: Available assets shall be converted to income for comparison to poverty guidelines, on a dollar for dollar basis, but will exclude from consideration the following assets in considering whether the patient meets the charity care financial criteria: savings accounts and other liquid assets with balances of less than six months of income, assets held in a tax-deferred or comparable retirement savings account, college savings accounts, all personal property, including, but not limited to, household goods, wedding/engagement rings and medical equipment, available business equity below \$50,000, automobiles used regularly by a patient or immediate family members, and other assets at our discretion that we may believe are in the patient's best interest to exempt.
